welcome to octane draincare

Octane Draincare offer advanced CCTV drain surveys, Site Investigations, Liquid Waste Removals, High Pressure Water Jetting, Blockage Clearance, Tank Cleansing, & Emergency Callout to name a few. We are a full licensed waste carrier.

CCTV surveys provide valuable information and evidence to clients & engineers. The survey will ascertain the integrity of the drains. We can provide variable drain surveys ranging from: Condition, Connectivity, Site investigation, Blockage Clearance or Look-See images relating to commercial and domestic drains. All work is guaranteed, all work is carried out with minimal disturbance to surface features or to your company.

CCTV Drain Surveys

Using the latest CCTV CAMERA TECHNOLOGY is the only way to inspect and determine the problem affecting drains both Commercial and Domestic including connectivity and condition of the drains. Also providing adoption surveys along with a full range of mapping services using a Sonde & Locator. We carry out surveys of sewers & pipelines in detail for all types of organisations.

At Octane Draincare we use state of the art camera software technology to deliver first class drainage inspections & surveys. The findings will be presented in a written report and fully explained, if required this can be carried out in real time on site depending on the urgency.

High Pressure Water Jetting

At Octane we provide a specialist cleaning service using High pressure water jetting using Ultra high pressure units. We can respond with our rapid team to clear all types of blockage clearances, again this service is available for both commercial and domestic projects.

This service is suitable for every industry from Construction to Utilities.

We are local authority approved contractors. Cleaning everything from chemical contamination to graffiti to sewer adoption along with everyday emergency spillages

Waste Removal - Liquid and Solid

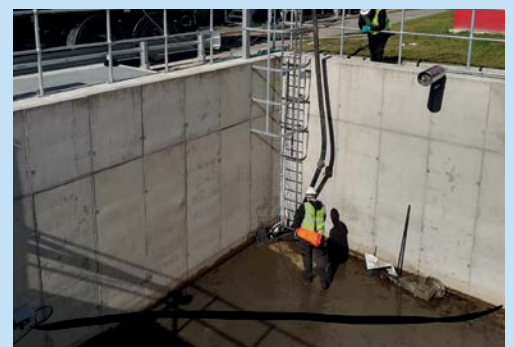

There are a number of acts of legislation governing the removal & disposal of waste. Waste removal legislation has to be observed at all times with failure resulting in serious consequences.

We work with our clients to transport & dispose of the waste on your behalf in a safe manner, observing all current legislation. We are licensed waste removal carriers enabling Octane Draincare to deal with the vast majority of industry waste removal issues.

Tank Cleaning

Our specialist tank and vessel cleaning services are available for all types of industries. We can provide above or underground cleaning.

This includes everything from Lagoons, sewage, industrial processing plants to specialist petrol, diesel & food tanks. A rapid & prompt service is standard.

Excavations & Drain Repairs

We carry out excavations, damaged drains can be replaced & repaired professionally to their original state using our very experienced teams.

We also carry out site civil works and are an approved contractor for

Klargester, to remove & install septic tanks. We have vast experience of working in the following industries - Oil & Petrol Refineries, Petrol Forecourts, Chemical & Manufacturing Plants, Food Processing to name but a few.
